Unlocking Value Across  
Your Portfolio

[peoplecert.org/MoP](https://peoplecert.org/MoP)

 **PeopleCert**

PRINCE2 Portfolio Management (previously Management of Portfolios – MoP) is comprised of principles, practices and techniques that will assist your organization in the successful adoption of portfolio management.

PRINCE2 Portfolio Management helps organizations address **two fundamental issues**:

how to choose the optimal combination of projects and programmes to suit their strategic objectives

how to execute them to ensure efficient and effective delivery, optimizing value for customers and other stakeholders.

**It focuses on the totality of change** brought about by the projects and programmes in the portfolio, rather than the work of individual initiatives.

PRINCE2 Portfolio Management is closely aligned with PRINCE2 Project Management and PRINCE2 Programme Management. It helps senior executives and decision-makers understand how effective portfolio management can maximize return on investment and drive lasting transformation.

### BENEFITS FOR PROFESSIONALS
