

ISACA Advanced
in AI Security
Management.

Secure the Potential of Enterprise AI.

BUILD TRUSTED EXPERTISE IN SAFEGUARDING AI SOLUTIONS.

ISACA Advanced in AI Security Management™ (AAISM™) is the powerful credential built for security professionals with a CISM or CISSP who drive secure AI adoption.

Develop the essential skills to safely guide AI transformation with the first credential built for tomorrow's secure enterprise.

From the creators of the award-winning CISM® certification, ISACA Advanced in AI Security Management™ (AAISM™) certification prepares experienced IT security professionals to navigate the evolving risks of AI, implement essential controls, and ensure its responsible and effective use across the organization.

Passing the AAISM exam proves your ability to identify, assess, monitor and mitigate risk in a future shaped by disruptive technologies. You'll be prepared to effectively leverage AI in security operations and deliver assurance across key practice areas, including:

1 Modern Threat Response—confronting evolving threats with clarity and control.

Confirms your ability to detect and respond to risks introduced by AI systems throughout the enterprise while adapting best practices.

2 Operational AI Readiness—leveraging AI to reinforce security posture.

Demonstrates your ability to evaluate, integrate and manage AI tools within security operations to increase visibility, reduce latency and achieve better outcomes.

3 Strategic Agility—evolving with the pace of innovation.

Validates your capacity to securely implement enterprise AI solutions to meet organizational objectives.

4 Forward-Looking Leadership—increasing credibility in a dynamic industry.

Empowers you to lead with confidence, precision and decisiveness.

An advanced security credential for professionals who meet these standards:

- Active CISM or CISSP certification
- Proven experience in security or advisory roles
- Some experience assessing, implementing and maintaining AI systems
- Successful completion of the AAISM exam

Shaping the future of artificial intelligence security.

As AI transforms business and security architecture, enterprise risk profiles are changing dynamically. Security leaders must do more than react. They must evaluate, adapt and guide organizations through new AI-driven systems and models, ethical considerations and security tools. Professionals today require both the technical context and leadership mindset to manage AI-specific vulnerabilities with confidence.

AAISM goes beyond simply visualizing AI security. It signifies expertise in driving AI governance and program management, assessing and mitigating AI risk, and utilizing AI technologies and controls to enhance security and streamline monitoring.

ISACA's AAISM certification meets this need by building on globally recognized credentials like CISM and CISSP. It equips leaders to:

- Evaluate and secure AI-enabled systems across the enterprise
- Integrate AI into existing security operations and workflows
- Identify and respond to risks tied to AI technologies
- Reinforce governance, compliance and responsible innovation

Confidence starts with exam prep from ISACA.

ISACA offers a deep portfolio of study and exam prep materials and training—all designed by leading industry professionals to reflect the latest, most in-depth understanding of the AI security sector.

AAISM Instructor-Led Training Course

Gain insights and build your knowledge with support from respected AI security experts.

AAISM Online Review Course

Prepare to pass your exam with this self-paced, on-demand course covering key concepts from all AAISM domains.

AAISM Questions, Answers & Explanations Database

Get a 12-month subscription to a comprehensive question pool. Build your custom study plan with a personalized database, track progress and review previously answered questions. (Available in English and Spanish.)

AAISM Review Manual (Digital or Print)

Explore this in-depth reference guide to understand AI security best practices. (Available in English and Spanish.)

In addition, ISACA's Engage forums offer a robust community of certified professionals ready with tips and advice.

Engage with peers: engage.isaca.org

Take the AAISM exam your way.

The AAISM certification exam consists of 90 multiple choice questions administered over two and a half hours. Take it online with remote proctoring or in a local test center throughout the year. (Available in English and Spanish.)
